16,000 mAh Power Bank with Type-C input

SKU: TTBB160002UFLCDK

16,000 mAh charger, Dual Charge, Intelligent Charge, Two USB outputs (1A and 2.1A), Micro USB and Type-C inputs, black colour

ABOUT

The ***16,000 mAh Power Bank*** is a **Multi Input charger** that allows you to charge your smartphone and tablet wherever you go. This charger is compatible with several types of cables: when your power bank is out of charge, choose between its Micro **USB or Type-C** ports to recharge it.
All you have to do is using a cable that supports any of these connectors.

WHY IS IT USEFUL?

This **power bank** is a must-have accessory to quickly charge your devices.
The **Dual Charge** system allows you to charge your smartphone or tablet while the power bank is being recharged. The **LCD display** shows the power bank's exact battery percentage, so you will always know when it is time to recharge your power bank.

FAST CHARGING

Thanks to the two 1A and 2.1A USB outputs you will be able to charge **two devices simultaneously**.
In particular, thanks to the 2.1A USB output with **Intelligent Charge** technology, the Power Bank automatically recognises your smartphone's or tablet's charge capacity and adjusts itself accordingly. This way, your device's battery level will be at **50%** after only 30 minutes of charging.

READY FOR TAKE OFF

This Power Bank is the perfect travel companion: its compact size makes it easy to carry and story anywhere, and it is **allowed on planes without any restrictions**.

FEATURES:

- 16,000 mAh capacity
- Dual Charge
